troops, medical rescue, machinery manufacturing, and so on. It can be widely used in our lives, without limitation of the country.

MEIJIA for small sensitive components micro waterproof protective case Details

R angle

The edge of the box mouth is designed with an inverted R angle, which is beautiful and smooth, so that you will not be injured by the angle.

Transparent Housing

Elegant and nice looking, convenient for user to know the things inside and distinguish the different cases.

Easy To Open With Latches Design

Smarter and easier to open than traditional cases. Start the release and offers plenty of leverage to open with a light pull in just seconds.

High Quality Auto Exhaust Valve

Solve the problem that the box can not be opened or deformation due to the difference of internal and external air pressure and keep water molecules out.
